REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant's arguments in combination with the amendments presented in the response to the office action filed February 22, 2005 were persuasive. The prior art, either singly or in combination, fails to anticipate or render obvious, the method including the limitations of forming a sidewall layer on the sidewall of the deep trench using the oxide layer as a mask, wherein the sidewall layer is isolated from the storage node of the deep trench capacitor, removing the oxide layer, and forming a barrier layer on the interior of the deep trench and the sidewall layer in combination with the other limitations of independent claim 1. The examiner set forth the reasons for allowance with respect to independent claim 10 in the Non-Final Office action mailed November 29, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer M. Kennedy whose telephone number is (571) 272-1672. The examiner can normally be reached on Mon.-Fri. 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael S. Lebentritt can be reached on (571) 272-1873. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
